THE CLEARFIELD PROGRESS, CLEARFIELD, PA., SATURDAY EVENING, JULY 22, 1922.

NUMBER 170

FIRST ATTEMPT TO MINE COAL UNDER HARDING PLAN HAS 350 TROOP SUPPORT

Washington, Pa., July 22.—On a high hill overlooking Pigeon Creek Valley, scene of the first attempt to produce coal under the Harding plan, 350 troopers encamped at dawn today. The troopers, equipped with field kitchens, tents and all necessary military paraphernalia, established a camp on the C. M. Flager farm at Cokesburg. They are prepared to remain an indefinite period. The Flager farm looks down on the Wilson mine and the numerous other properties attacked by armed strikers in the past week. The troops, it is understood, will not furnish protection to the mines resuming operation but will patrol highways and act as an auxiliary to the State Police. The Wilson mine resumed operations several weeks ago under heavy guard and is producing about five cars of coal per day.

Washington, Pa., July 22.—Meanwhile reports of violence were received by Captain Smith at regimental headquarters here. Strikers were reported to have dynamited the home of a mine worker at Youngwood, West moreland County, when he failed to quit work at the Penfield Mines of the Keystone Coal Company. No one was

injured in the explosion. Bloodhounds are being used by State Police in an effort to apprehend those responsible for the wrecking of an engine and 5 cars of coal on the Dunlap Branch causing serious injury to a brakeman James Sutton. Traffic on this branch will be tied up all day.

Ebensburg, Pa., July 22.—Striking miners planned a demonstration at South Fork this afternoon to protest against Governor Sproul's proclamation prohibiting mass meetings during the occupation of the National Guard. Major Edgar McKinney, commander of the 575 troops in Cambria and Somerset Counties, announced that the proposed mass meeting was a violation of the law, but he refused to say whether he would take steps to stop it. The decision to hold the meeting was made following a conference between J. P. Mark, representing District No. 2, Major McKinney and David Cowan, an organizer. Cowan insisted that the meeting be held. The strikers were said to have agreed with Cowan and went ahead with plans to conduct the meeting.

SEVEN PERSONS KILLED AS PASSENGER TRAINS MEET IN HEAD-ON COLLISION

Logan, Mo., July 22.—Five persons were killed and a score or more seriously injured when M. K. & T. passenger train No. 9 and Katy & Frisco train No. 2, collided head on here. Engineer C. H. Ring, of No. 9, was instantly killed. An unidentified man, a woman and two children also met instant death. Both trains were running late. The west bound train was running at high speed and No. 2, eastbound, was slowing down and had almost stopped to meet the west bound passenger, it

was stated. Logan, Mo., July 22.—Seven persons were killed and at least forty others injured in a terrific head on collision between the Meteor and the Texas Special, two crack trains on the Frisco railroad here at 4 o'clock this morning. The known dead are C. H. Ring, engineer of the Meteor and his fireman, George Nealy, and five unidentified passengers on the Texas Special, a man, a woman and 3 children.

BROPHY ASKS FOR FREE SPEECH AND RIGHT TO ASSEMBLE

President John Brophy, president of District No. 2, United Mine Workers, having learned that state police of some of the sections of the district, have issued warnings that further open air meetings would not be permitted, has addressed a telegram to Governor William Sproul, protesting against the orders. The telegram is a very vigorous presentation of facts and is as follows:

"William C. Sproul.
"Harrisburg,
"For almost four months the miners of Central Pennsylvania have been holding scores of peaceful open air meetings to discuss matters pertaining to their common good. Law and order have been maintained and good will has prevailed. The strike has been conducted in a peaceful and orderly manner. We are now informed that orders have been issued from Harrisburg prohibiting these open air meetings which are being held on private property, which is leased for that purpose. This is an unwarranted invasion of the rights of assembly guaranteed by the constitution of Pennsylvania and of the United States and as a citizen of state and nation we, the United Mine Workers of Central Pennsylvania, protest against setting aside of our civil rights which should be as carefully safeguarded as our rights of property. Will you not, therefore, rescind this order, which nullifies our constitutional rights. Please re-"
"Signed JOHN BROPHY, Pres.
"Dist No. 2, U. M. W. of A."

L. G. Runk, one of Philadelphia's live wire business men, was a Clearfield visitor today.

About one dozen of her friends helped Mrs. Edith Fauver celebrate her birthday. A highly enjoyable time was had and delicious refreshments disposed of.

SHIPPING BOARD WILL HAUL COAL

Washington, D. C., July 22.—The Shipping Board is ready to put a huge fleet of vessels into service to bring coal from Wales into this country to make an attack upon the impending coal famine which threatens to cripple the industries of the nation. The first steps looking to the importation of coal have been taken by the Board. J. B. Smull, Vice president of the Merchants Fleet Corporation, announced that judging from recent dispatches a comprehensive program has been formulated by the Board. Already forty Shipping Board vessels have been chartered for the service and arrangements have been made to obtain thirty-one more British ships. It is believed that in this way 500,000 tons of coal per month can be delivered in this country.

PITTSBURGH BANK HEAD TO TESTIFY

Harrisburg, Pa., July 22.—John A. Bell, Pittsburgh banker, will be the star witness when the hearings of the State Treasury investigation are resumed here next Monday. Five men who were entered on former State Treasurer Hannon M. Kephart's contingent fund vouchers as employees in the State Treasury have been subpoenaed to testify as to the circumstances under which they were employed. W. J. Hoffman, of the State police, will be called to testify regarding the affidavit of Harry Berlin to the effect that he had never worked for the State Treasury Department.

CAMBRIA STEEL TO GRANT WAGE BOOST

Johnstown, Pa., July 22.—The Cambria Steel plant of the Midvale Steel & Ordnance Company today announced a 14 per cent wage increase effective August 1st. The increase does not extend to the employees of the mining department of the Cambria.

UNITED SUPPORT OF ENTIRE A. F. OF L. BACK OF STRIKERS

Legislative Representatives of All The Labor Unions Take Such Action at Washington.

LEADERS NOTIFIED

Washington, D. C., July 22.—The united support of the entire American Federation of Labor was pledged to the striking miners and shopmen today as the result of action taken by legislative representatives of all of the labor unions. The following telegram was sent to President Lewis, of the miners, and Bert M. Jewell, of the shopmen, by Samuel Gompers: "It was the unanimous conclusion that we telegraph you in the name of the conference that the strike has our full sympathy and support and that we wish you every success for an honorable adjustment in the present controversy." Reports made to the conference from various sections of the country indicate a rising public sympathy in favor of the men who are fighting for right and justice."

STRIKE AT BALDWIN LOCOMOTIVE WORKS POSTPONED A WEEK

Philadelphia, Pa., July 22.—Hearing that a general strike was to be called at the Baldwin Locomotive Works, fifty mounted policemen were assigned to guard duty there today. The mounted police were sent to relieve the police reserves which were already on duty at the works. A walk out was scheduled for midnight, but it was learned today that the proposed strike had been postponed for one week. The reason for the walk-out could not be learned.

THIRTY THOUSAND STRIKING MINERS BACK TO WORK

Harrisburg, Pa., July 22.—Thirty thousand striking miners have gone back to work in the State since June 4th, the Department of Labor announced today. There were 270,198 miners out on strike in Pennsylvania today, according to the report. Including Altoona, Erie, Pittsburgh and Philadelphia districts where conditions made it impossible to ascertain the exact situation, 9981 were reported out in connection with the railroad shopmen's strike.

WINBURNE AUTO TURNS TURTLE ON SANDY RIDGE ROAD

A Dodge Touring Car driven by Richard Gray, Jr., of Winburne left the road on a curve between Sandy Ridge and Osceola last night and going down over the bank turned upside down. Four other young men from Winburne were in the car with Gray and all escaped with slight injuries. Thomas Charlton knocked a few splinters off his "bean" when he hit a rock kaffer being catapulted out of the car, while Donald Barr and Gray were also considerably bruised and cut up.

9,000 LAKE SEAMEN JOIN IN UNREST

Cleveland, July 22.—A strike of 9,000 lake seamen, which would tie-up lake navigation loomed here today. The seamen are protesting against this year's wage cut, declaring that the reduction of last year was sufficient.

PUTTING IN NEW FRONT

Contractor Ashley Rishell has started a crew of men to work putting in the new front at the A. W. Leonardson Company store on Market street.

COAL PRICES SOAR AS RESULT OF MINE STRIKE SHORTAGE

Retail Dealers with Bins Nearly Empty, Boost Prices As Much As Seventy-five Per Cent.

RAIL STRIKE CAUSE

New York, N. Y., July 22.—Coal prices have advanced all over the country as shut down of industries loomed nearer, it was learned here today. Retail dealers with their bins nearly empty boosted prices in some cases 75 per cent or to double that before the rail and coal strikes. Inability of the railroads to move cars to and from the mines added to the crisis. Many plants and factories rushed the installation of oil burners in an effort to keep operating. Indianapolis reported the prices of West Virginia coal \$5.50 higher a ton, while other kinds of coal increased correspondingly. Retail dealers supplies were virtually exhausted through out the state. Prices in Columbus advanced \$1.00 per ton. On the Pacific coast dealers were advancing prices while conditions were unchanged otherwise.

"HUMAN FLY" WILL CLIMB DIMELING HOTEL AT 7 P. M.

Billie O'Brine, the real "Human Fly", will climb The Dimeling Hotel this evening at 7 o'clock. O'Brine climbed the Hotel Phillips at Philadelphia last evening, his hair raising feat, being witnessed by an audience which completely packed the square about the hotel.

He climbed The Dimeling at 2:30 this afternoon for the edification of a large crowd. His stunt is full of thrills and is worth seeing, if you care for hair raising stunts. Not having the hair with which to qualify it don't appeal to us, but we'll likely be in the crowd this evening at that.

WHOOPIING COUGH TAKES SHORT SPURT

Secretary Gaulin's report of the public health for the past week shows that six cases of whooping cough, one of diphtheria and one of chicken pox developed during the week.

The total number of cases under quarantine at this time is fifteen. Three cases were released from quarantine during the week.

The communicable diseases under quarantine are as follows:

- First Ward—Whooping cough, 3;
- Second Ward—Whooping cough, 6; chicken pox, 2; diphtheria, 1.
- Third Ward—Not a single case.
- Fourth Ward—Chicken pox, 3.

WILL ORGANIZE REAL ESTATE MEN

The real estate brokers or agents of Clearfield county and Phillipsburg will organize a branch of the State Association at a meeting to be held at the Dimeling Hotel at 9 o'clock Monday morning, July 24.

The Executive Secretary of the State Association William H. Hay, of Philadelphia, will be present and explain the purposes of the organization.

The primary object of the organization will be the securing of additional legislation, which will put the real estate brokerage business upon a substantial basis and thus be of benefit to both the agent and owner of the property handled.

REMODELING OFFICE BUILDING

Contractor A. E. Hess has a crew of men at work converting the Powell home on Market street into an office building for the Clearfield Water Company, which concern recently purchased the property. The office of the Water Company will be located on the ground floor, next door to the post office.

PENNSYLVANIA R. R. WILL CONTINUE TO FIGHT LABOR BOARD

Pennsy Vice-Pres. Notifies Employees Decision Favorable To Ruling Would Be Appealed.

TO HIGHEST COURT

Philadelphia, July 21.—A statement issued by W. W. Atterbury, vice president in charge of operation of the Pennsylvania railroad, to all employees, late today, notified them the company intends to stand by the agreements reached between the elected representatives of the employees and the management. The Federal court of appeals at Chicago yesterday decided against the company in its dispute with the railroad labor board. Atterbury announced the company intended to appeal the decision to the United States supreme court.

Chicago, July 21.—Dismissal of the Pennsylvania railroad's injunction against the United States railroad labor board and reversal of the district court's decree was formally entered today in the United States circuit court of appeals with the filing of the court's opinion in the case.

The court declared, that in rendering decisions to which the Pennsylvania objected, the board did not transcend its power under the transportation act.

After a review of the case, which originated when the road declined to hold certain elections prescribed by the board to select an employees' committee to negotiate working rules, the opinion waived the question of whether decisions of the board are enforceable. The injunction was only to restrain the board from publishing decisions condemning the road.

"Hand Is Quicker Than The Eye"—Sure

"Moe" Robinson had long heard it said that the hand was quicker than the eye. He didn't believe it; he does now. Last evening "Moe" piled several local friends into his car and went to the Clark circus at Curwensville. In the side show at the circus, ground an inoffensive cadaverous looking individual was nervously toying with three cards upon a small table. He was carefully turning back corners from time to time and casually offering the challenge that not a single individual could pick out a particular card even tho' he would turn back a corner to show him which was which.

The operator got so earnest in his proposition when "Moe" stuck his back into the ring of rubes surrounding the table, that he offered to bet money on his contention and as an earnest of his skill and ability, "Moe" looked the affair over very carefully, decided the fellow wasn't so slick as he thought he was, and when satisfied he himself could call the turn of the card, he so far forgot his usual objection to games of chance as to offer to wager five good hard dollars that he could pick up the "right card."

The "artist" was willing, "Moe" deposited his five spot, and made the test. He now knows all about the relative speed of the hand versus the eye, and as it cost him five dollars to find it out, he promises to remember it. Barnum was right, "there is one born every minute."

FAMOUS BRITISH PUBLISHER VERY ILL

London, England, July 22.—Lord Northcliffe, owner of the London Times and several other publications is in the most critical period of his recent serious illness. The famous publisher's condition was described by physicians as giving rise to great anxiety. A fever caused by toxic poisoning remains unabated, the doctors declared.

Mrs. W. W. Howe is confined to her Market street home by an attack of diphtheria.

PRESIDENT HARDING EXPECTS TO HAVE PLAN FOR ENDING RAIL STRIKE WORKING WITHIN COMING FORTY-EIGHT HOURS

Summons Ben W. Hooper, Chairman Of Rail Labor Board, To Washington For First Hand Knowledge Of Differences Between Contending Forces And Will Bring Them Together.

WASHINGTON BELIEVES SOLUTION NEAR

WASHINGTON, D. C., July 22.—Within forty-eight hours President Harding will move to end the rail strike. The executive today sought a solution of the nation-wide tie-up in a conference with Ben W. Hooper, Chairman of the Rail Labor Board, summoned from Chicago, and first-hand accounts of all questions at issue and the positions of the warring factions in the Labor Board's negotiations are demanded by President Harding. The President will then determine what action he can take toward settlement of the strike. It is believed he will bring railroad executives and union leaders together for a peace conference.

Washington, D. C., July 22.—As Ben W. Hooper arrived to confer with President Harding a feeling of optimism for a settlement of the railroad strike was prevalent among Administration officials. For the first time since the shopmen's walk-out Cabinet members believed that a settlement can be arrived at in the near future, on account of the following conditions:

FIRST.—A willingness of an increased number of roads to take back the strikers, giving them their full seniority rights. SECOND.—The inference of E. F. Grable, president of the Maintenance of Way employees, that the strike order of his union would not be executed. Chairman Hooper said that the western and southern roads in general are ready to restore seniority privileges to the workers, but the eastern roads feel that they will be unable to do so because they have advertised that men taking the places of strikers would receive the same rights as the former employees.

Washington, D. C., July 21.—Determined to obtain a first hand view of the railroad strike situation, President Harding today called Chairman Hooper of the rail board here from Chicago for a personal interview tomorrow. Prior to summoning the labor board head, the President received Chairman Cummins and Senators Kellogg and Watson of the Senate interstate commerce committee, who reported on their conference last night with Eastern rail executives and later the whole question was taken up for discussion in a prolonged cabinet session.

The President was presented as desirous of hearing from Mr. Hooper on account of the positions taken by leaders of striking shopmen, rail executives, and the board itself during the negotiations aimed at a strike settlement, but which now have been broken off some conflicting reports on the matter have been received at the White House, especially since the conference held last night by the three interstate commerce committee senators and executives of the larger eastern trunk lines.

Meanwhile Attorney General Daugherty conferred at the capital last night with Senator Borah, chairman of the Senate labor committee and then with Mr. Cummins the discussions involving the possibility of legal action in both the rail and the coal strikes, although the attorney general stated afterward that no immediate legal proceedings were contemplated.

With Mr. Borah, the attorney general discussed particularly the rail strike situation in the west, while with Mr. Cummins he went over not only the western problems, but the entire legal situation as it concerns both rail and coal strikes, the result being Mr. Daugherty said, that he and Mr. Cummins were in agreement as to the Governments' power to act in both cases.

U. S. Authority Ample
"I haven't any doubt" the attorney general said later "that the Government has as much power and authority to protect men producing coal which is indispensable to transportation, as it has to protect men moving mails and interstate commerce. The Government has full power and authority to see that production incident to transportation is not interfered with."

Dan Connelly left yesterday for Snow Shoe, where he will spend the coming week with his sister, Mrs. E. A. Markel.

Miss Isabella McBlain, clerk in District Attorney Arnold's office, left yesterday for Cleveland, Ohio, where she will spend her vacation with relatives.

IMPROVED ROADS BY THE SPROUL REGIME TOTAL 1500 MILES

State Highway Dept. Has Laid 150 Miles of Improved Roads Thus Far In Year 1922.

RECORD FOR U. S. A.

Harrisburg, July 21.—The State Highway Department up to the present time during the 1922 construction season has put down approximately 1500 miles of durable highway.

Since the beginning of Governor Wm. C. Sproul's administration the State Highway Department has completed, with this week's work, a total of approximately 1,500 miles of durable highway in various sections of the state. This is a greater mileage of modern type road than was ever put down by an American state in the same period of time.

Operations of the Highway Department during 1922 have been interfered with by the unseasonable rains, which in their frequency have rivalled the rains which interrupted the Department's work during the forepart of the Summer of 1919. The United States Weather Bureau reports that during the 82 days of May, June and July, this year, there has been rain on 34 days. This would seem to be the average for Pennsylvania, but in some regions of the state the rainfall has been even more frequent. Rain works havoc with the contractors on highway work because not only must they close down during the time of the rain, but after the rain until such a time as the sub-grade is dry.

INDIANA GOVERNOR OFFERS TO UMPIRE

Indianapolis, Ind., July 22.—Governor McCray today invited mine owners and striking miners of Indiana to meet in his office next Tuesday to arbitrate their differences. Letters were sent to John Hessler, District President of the United Mine Workers, and Phil Penna, spokesman for the operators.

Rev. E. C. Reeve and daughter are visiting relatives and old home scenes at Hopkinton, Iowa, at present.

WAITER'S SLANG AT JORDAN'S

"Mutton Broth in a hurry," says the customer
"B. abaa in the rain. Make him rain!" shouts the waiter.
"Beefsteak and onions," says the customer
"Johnny Bull! Make him gunny!" shouts the waiter
"Where's my baked potatoes?" asks the customer
"Mrs. Murphy in a seal skin coat!" shouts the waiter.
"Two fried eggs. Don't fry 'em too hard," says the customer.
"Adam and Eve in the garden! Leave their eyes open!" shouts the waiter
"Poached eggs on toast," says the customer.
"Bride & groom on a raft in the middle of the ocean!" shouts the waiter.
"Hash," says the customer
"Gentleman wants to take a chance!" shouts the waiter.
"I'll have hash, too," says the next customer.
"Another sport!" shouts the waiter
"Glas of milk," says the customer
"Let it rain!" shouts the waiter
"Frankfurters and sauerkraut, good and hot," says the customer
"Flour, Soap and a bale of hay!" shouts the waiter, and let 'em sizzle!

A whole lot of the American people did not spend all of their war profits. Listen to this:
Total savings deposits in banks amount to \$16,500,000,000, according to an exhaustive study just completed by the American Bankers' Association.
The present figure of sixteen and a half billions includes savings deposits, certificates of deposit of thirty days and over, and postal savings, for which the most complete data yet compiled has been obtained through a special nation-wide inquiry made in co-operation with the Controller of the Currency, the supervisors of State banks and individual bankers.

The third Germin-American National Conference held at Chicago last week, and presided over by George Sylvester Viereck is still mad at those Americans who helped lick Germany, and feel correspondingly grateful to those U. S. Senators who labored so hard for Germany's cause before, during and since the Kaiser got such a beautiful kicking. As was to be expected under the circumstances resolutions were adopted pledging the German vote to Senator Beveridge of Indiana; France, of Maryland, and Reed of Missouri. The conference also demanded revision of war treaties, withdrawal of Negro troops from Ger-

many; approved the inquiry into the Alien Property Custodian's office; endorsed a constitutional amendment requiring a referendum to declare war except in case of actual invasion; and demanded immediate return of beer and wine.

The Rev. William Rice, Kentucky mountaineer preacher, who has fasted for 70 odd days, is believed to be dying at his mountain cabin home. He has refused all food since he began his fast and has drunk only water. Rice has lost the power of speech and his features are set as if already under the seal of death. The ability to walk deserted him last week and he was placed in bed, since being able to move his arms and legs only slightly. He can turn his head on the pillow.

The family has arrived, and, sitting about his bedside, await the end of one of the most peculiar cases the mountains have ever known. Rice is a preacher and scores of people have gathered daily about the home of the fifty-year-old faster. For twenty years he has traveled through the mountains holding evangelistic meetings. He could not make much of a living with his ministry, and May 15 last was arrested and placed in jail at Mount Sterling, Ky., as a vagrant. There he refused to eat. After nine days of voluntary starvation in jail he was released and walked forty miles to his home. There Rice announced he would never eat again, saying God in a vision told him to make the sacrifice of himself to convert his neighbors to Christianity. He said the devil has constantly tempted him, but that he was being ministered to by spirits and therefore needed no food. For several weeks, he has lain beside his bed a Bible, fan, trumpet and cross with a likeness of Christ pinned to it.

The Interstate Commerce Commission has made final settlement with three large railroad companies on account of the Federal guarantee against losses sustained by them during the six months of 1920, immediately following the suspension of Government operation. To the St. Louis and San Francisco, which was entitled to \$5,355,449, went a balance of \$865,449; to the Fort Worth and Rio Grande, a final payment of \$261,885, on a guarantee of approximately \$418,000, and to the St. Louis, San Francisco and Texas, with a total claim of \$314,967, a final payment of \$114,967.

LEGAL PROGRAM IS ABOUT READY

Washington, D. C., July 22.—A complete program of legal action to protect public interests has been prepared by the Department of Justice. The Government will apply to the coal strike the principle that the mining of coal is in exactly the same status as the protection of the mails or of interstate commerce. Guided by this principle Attorney General Daugherty has all his plans made for sweeping court action to protect coal producers who will obey the President's injunction to reopen their mines. Daugherty has obtained the endorsement of Senator Cummins and other officials for his position.

Horse Shoe Pitching Tournament Schedule

Following is the schedule for the coming Community Service Horse Shoe Pitching Tournament:
Monday, July 24, West Side Court; Keystone 3, Woods and Haddup; Fullington and Wilson, H. W. R. & Co. Kinkead and Kinkead, Kinkead and Ardey, East End.
Tuesday, July 25, Machine Shop Court; iWtherow and Jay, Spencer and Baumgardner, West Side.
Wednesday, July 26, West Side Court; Waite and Hudd, Barbers; Woods and Woods, Keystone Ice Cream 2. Hughes and Maurer, West Side; Flegal and Flegal, East End.
Thursday, July 27, Machine Shop Court; Bollinger and Hudson, Ogden avenue; Stewart and Neil, Budge street.
Friday, July 28, Machine Shop Court; O'Donel and Hixon, Machine Shops; Barger and Spackman, West Side.
Saturday, July 29, West Side Court; Woods and Woods, Keystone Ice Cream, 1, McCarthy and Braund, Progress.
Sunday, July 30, Bridge Street; Ennis and Ogden, West Side.
Monday, Aug. 1, Machine Shop Court—Cowdrick and Shaw, West Side; Reed and Turner, West Side.
Tuesday, Aug. 2, Machine Shop Court—Hubble and Ogden, West Side.
Wednesday, Aug. 3, West Side Court—Wilson and Lauver, East End; McCloskey and Leisure, West Side.
Thursday, Aug. 4, Machine Shop Court—Hainey and Gilbert, West Side; Fleming and Hughes, West Side.
Friday, Aug. 5, Machine Shop Court—Lytle and Adams, West Side; Hudson and Hudson, Ogden Avenue.
Saturday, Aug. 6, Machine Shop III.

Second Ward Tennis No. 1

Five companies 4 and 3 played off a little match of volley ball last night on the Reedsville court, three of the four games going to Number Two. Both teams have been at it pretty regularly, so some of the Warders present thought it good enough to ask the winners over to the West Side court Monday evening. This is a better sport than a lot of people realize, so take a look—see Monday night around seven—you may want to get into the game. Community Service is at the bottom of this, incidentally.

Peppish Pedagogue.
There are some submitted with jar on the susceptibility of pupils. A story is told of an Oxford don who, after hearing the viva voce of an undergraduate, passed this underdog: "My dear fellow, your Greek prose is disgusting, your Latin prose is disgusting, and your translation is disgusting and your name is disgusting."

Speed of Fast Locomotives.
The modern express passenger locomotive can run at the rate of 112 miles per hour on a heavy rail and straight track, provided there is a rail behind it to prevent it from slipping the track.

The Word Cockle.
To worry the cockles of one's heart has several strange derivations. The word cockle is said to have been derived from the resemblance in shape between a cockle shell and a heart; from the resemblance between the green wood for heart, kardia, and the Latin word for cockle, cardium; and from the Latin word cockle, meaning ventricle, a small cavity in an animal body.

Fellow Sufferers.
Dryden—"No, sir," don't know what whisky tastes like. Wetmore—"I understand. Since we've been reduced to this synthetic stuff I, also, have forgotten what real whisky tastes like."

Goat Leads Milk Production.
The goat produces more milk, and is more intelligent than any other animal kept for production.

A Distinct Story.
"Egora, if you're there wance wuz an Orlisbman named Pat. Wuz day he bane walk in the shroet and he seen it his friend O'Grady with a girl. Nu, says Pat next day to O'Grady, 'Dit's a bababab madd' an done see you a-walkin' with yestiddy. Who was it dot lady?' 'Saprist! I answered O'Grady, with a rich bridge, 'She's nuf, dat I'll gal don't no lady. She hane me wuz'."

COMMUNITY SERVICE BASE BALL SCHEDULE TWILIGHT LEAGUE

Monday, July 24th, 6 p. m. at Reedsville, I. O. F. vs. Hillsdale.
Wednesday, July 26th, 6 p. m. at Reedsville, Reedsville vs. Red Men.
Friday, July 28th, 6 p. m. at Park Gearhart vs. K. of C.
Tuesday, July 25th, 6 p. m. C. I. C. vs. Luthrans.
Thursday, July 27th 6 p. m. Brotherhood vs. Presbyterians.
Saturday, July 29, 10 a. m. St. Francis, 5, Trinity, 3.

All eight hours. Apply any New York Central Agent.

MEETING OF LOCAL W. C. T. U.
A meeting of the W. C. T. U. was held at the home of Mrs. Hile on Pine street Thursday evening.
"The Feast of Fete" was read by Mrs. Hile, representative of the Feast of Belshazzar in Babylon, where wine and revelry prevailed and wrought ruin to this ancient City and Kingdom.
Mrs. Runk read an article on the shipping of liquor from other countries into the U. S. and an Amendment to the Tariff Bill by Senator Sterling proposing a Dry Zone at sea of eighteen miles. Other nations have found it necessary to extend the three mile limit to 10 or 12 miles.
A short report was given of the late Institute by Group 2, held in West Clearfield M. E. church.
It was moved and carried that the next meeting, a social meeting be held in the West Side Park.
Excellent refreshments were served by the hostess, during which time her son Edward delightfully entertained with pleasing selections on the piano.
Some of the members have gained their share to make up the \$8,000 gain in membership.

Turned Down.
"Boss," whined the beggar, "speak to me as man to man, I'm hungry."
"Friend," replied the pedestrian, "speaking as man to man, I have just one dime left for car fare and I propose to see that a greedy corporation gets it."—Birmingham Age-Herald.

All That Happened.
My tiny niece has a propensity for playing with the telephone, for which she has received many scoldings, but to little avail, writes a correspondent of the Chicago Tribune. Her mother heard a crash the other day and called in "Viola, what have you done?" The little miss replied: "I didn't hurt it this time, mother. Just the 'number, please,' came out."

Don't neglect that cough. Wrench's Glycyrrhols or Tar and Wild Cherry will give relief without harmful dose or alcohol. 25c and 50c.

Wood and Paper Picnic Supplies
What's the use of taking a lot of regular home china or the silverware with you on that picnic that you'll probably make over the week-end? Why not use paper plates and the like and wooden spoons, forks and knives—you'll be surprised to see these wooden knives cut.
Then after you're through eating all you have to do in the way of washing dishes is to gather everything in a heap and touch a match to the pile and presto! the dishes are washed.

FORD RETAIL SALES MAKE NEW RECORD

Company Reports Total Sales Have Reached 5,709 Machines A Day.

FORD

Retail sales for Ford cars, Trucks and Tractors established a new high record during June, when, according to a statement issued from the Ford Factory at Detroit, an average of 5,709 machines were sold daily.

Ford sales have been showing a constant increase each month this year; June being the highest in the history of the company with a total of 148,489 Cars Trucks and Tractors. Of this number, 6,054 were sold by the Ford Company of Canada and 9,455 by the various European Ford Companies and South American Branches, reaching purchasers in practically every civilized country in the world.

With the closing of business for June, Ford records disclosed the fact that total sales for the first six months of 1922 were well over the half million mark, the exact figures being 552,261. This is also a new high record as it is considerably in advance of any previous half year period.

July Ford sales are expected to equal, and probably eclipse June. The estimate output of Cars, Trucks and Tractors has been placed at 181,767, all of which have been requisitioned more than 200,000.

Ford officials state that every attempt has been to supply their dealers with sufficient cars to fill their orders, but that for the past three months, prompt deliveries have been impossible with some of the types. The demand for Ford enclosed cars has been especially hard to meet, due to the ever-increasing popularity of the Coupe and Sedan for all year around use.

A reflection of general business conditions is seen in the record of Ford truck sales, which shows an increase of eighty-four per cent over last year. Merchants and farmers alike have come to recognize the utility of the motor truck in cutting transportation costs and speeding up deliveries, and the fact that they are buying nearly twice as many now as a year ago, clearly points to better business conditions.

At the present time, Ford is employing 75,000 men in Detroit.

NOT THE SAME

"Did the sporting editor give you that fight ticket you asked him for?" asked the red-headed office boy.

"Now," replied his friend. "He only made a pass at me."

TURTLE COMES UP FOR AIR

The mud turtle takes in a certain amount of air and then buries himself in the mud. When this air is exhausted, it comes up for more. However, in the water, the mud turtle buries himself in the mud in a state of suffocation and remains several months.

LESSON FOR JULY 23

DANIEL IN THE DEN OF LIONS

LESSON TEXT: Daniel 6:1-28.
GOLDEN TEXT: "I have obtained promises from the Lord my God, and I will not fail."—Daniel 1:19.

REPHRASE: "I have obtained promises from the Lord my God, and I will not fail."—Daniel 1:19.

PRIMARY TOPIC: God Takes Care of His People.
JUNIOR TOPIC: Daniel in the Den of Lions.
INTERMEDIATE AND SENIOR TOPIC: Daniel's Heroic Faith.

YOUNG PEOPLE AND ADULTS: Daniel's Faith and His Victory over the Powers of Evil.

1. Daniel the Prime Minister of the Medo-Persian Empire (vv. 1-3).
Stealing wealth brought him to the front and kept him there. The new king was keen to discern his worth and to give it recognition.

2. An Occasion Sought Against Daniel (vv. 4-5).
The king, who had been so kind to him, now sought to find a way to get rid of him.

3. The Reason for (vv. 6-7).
The king, who had been so kind to him, now sought to find a way to get rid of him.

4. The King's Decision (vv. 8-9).
The king, who had been so kind to him, now sought to find a way to get rid of him.

5. The King's Decision (vv. 10-11).
The king, who had been so kind to him, now sought to find a way to get rid of him.

6. The King's Decision (vv. 12-13).
The king, who had been so kind to him, now sought to find a way to get rid of him.

7. The King's Decision (vv. 14-15).
The king, who had been so kind to him, now sought to find a way to get rid of him.

8. The King's Decision (vv. 16-17).
The king, who had been so kind to him, now sought to find a way to get rid of him.

9. The King's Decision (vv. 18-19).
The king, who had been so kind to him, now sought to find a way to get rid of him.

10. The King's Decision (vv. 20-21).
The king, who had been so kind to him, now sought to find a way to get rid of him.

11. The King's Decision (vv. 22-23).
The king, who had been so kind to him, now sought to find a way to get rid of him.

12. The King's Decision (vv. 24-25).
The king, who had been so kind to him, now sought to find a way to get rid of him.

13. The King's Decision (vv. 26-27).
The king, who had been so kind to him, now sought to find a way to get rid of him.

14. The King's Decision (vv. 28-29).
The king, who had been so kind to him, now sought to find a way to get rid of him.

15. The King's Decision (vv. 30-31).
The king, who had been so kind to him, now sought to find a way to get rid of him.

16. The King's Decision (vv. 32-33).
The king, who had been so kind to him, now sought to find a way to get rid of him.

17. The King's Decision (vv. 34-35).
The king, who had been so kind to him, now sought to find a way to get rid of him.

18. The King's Decision (vv. 36-37).
The king, who had been so kind to him, now sought to find a way to get rid of him.

19. The King's Decision (vv. 38-39).
The king, who had been so kind to him, now sought to find a way to get rid of him.

20. The King's Decision (vv. 40-41).
The king, who had been so kind to him, now sought to find a way to get rid of him.

21. The King's Decision (vv. 42-43).
The king, who had been so kind to him, now sought to find a way to get rid of him.

22. The King's Decision (vv. 44-45).
The king, who had been so kind to him, now sought to find a way to get rid of him.

23. The King's Decision (vv. 46-47).
The king, who had been so kind to him, now sought to find a way to get rid of him.

24. The King's Decision (vv. 48-49).
The king, who had been so kind to him, now sought to find a way to get rid of him.

25. The King's Decision (vv. 50-51).
The king, who had been so kind to him, now sought to find a way to get rid of him.

26. The King's Decision (vv. 52-53).
The king, who had been so kind to him, now sought to find a way to get rid of him.

27. The King's Decision (vv. 54-55).
The king, who had been so kind to him, now sought to find a way to get rid of him.

28. The King's Decision (vv. 56-57).
The king, who had been so kind to him, now sought to find a way to get rid of him.

29. The King's Decision (vv. 58-59).
The king, who had been so kind to him, now sought to find a way to get rid of him.

30. The King's Decision (vv. 60-61).
The king, who had been so kind to him, now sought to find a way to get rid of him.

31. The King's Decision (vv. 62-63).
The king, who had been so kind to him, now sought to find a way to get rid of him.

32. The King's Decision (vv. 64-65).
The king, who had been so kind to him, now sought to find a way to get rid of him.

33. The King's Decision (vv. 66-67).
The king, who had been so kind to him, now sought to find a way to get rid of him.

34. The King's Decision (vv. 68-69).
The king, who had been so kind to him, now sought to find a way to get rid of him.

35. The King's Decision (vv. 70-71).
The king, who had been so kind to him, now sought to find a way to get rid of him.

36. The King's Decision (vv. 72-73).
The king, who had been so kind to him, now sought to find a way to get rid of him.

37. The King's Decision (vv. 74-75).
The king, who had been so kind to him, now sought to find a way to get rid of him.

38. The King's Decision (vv. 76-77).
The king, who had been so kind to him, now sought to find a way to get rid of him.

39. The King's Decision (vv. 78-79).
The king, who had been so kind to him, now sought to find a way to get rid of him.

40. The King's Decision (vv. 80-81).
The king, who had been so kind to him, now sought to find a way to get rid of him.

THRIFT HABIT GROWING

The oft-repeated charge that Americans are a wasteful people and have never acquired the thrift habit is given a hard jolt by figures on savings bank deposits just announced by the American Bankers' Association. The announcement that \$16,500,000,000 is deposited on savings accounts in banks of the country, including the postal savings system, does not impress the average person as forcibly as when this figure is reduced to per capita terms. Thus apportioned it represents \$265 for every man, woman and child in the country.

Many of the country's leading bankers looked for a substantial dropping off in savings deposits from the peak reached during the hectic war days, but instead the total has increased by many millions. This would indicate that Americans have cultivated the habit too well to rush to the banks for their "rainy day" fund at the first signs of adversity. The savings account has become a firmly established institution in practically every American home, a permanent result of the Liberty loan drives and war thrift campaigns that makes pessimism about the country's future look silly.

NOTHING NEW

The trite saying, "There's nothing new under the sun," never was more of a truism than when applied to attacks on Congress. Since the days of Washington and Jefferson it has been the great national pastime. In 1788 former Revolutionary soldiers marched upon Congress at Philadelphia to demand compensation for their services in the war and so frightened the solons that they fled to Princeton and held secret sessions. The new constitution when first proposed aroused particularly virulent attacks. Anent this Hopkinson wrote to Jefferson in 1788:

"You will be surprised when I tell you that our public newspapers have announced General Washington to be a fool influenced and led by that knave, Dr. Franklin, who is a public defaulter for millions of dollars; that Mr. Morris has defrauded the public out of as many millions as you please and that they are to cover their frauds by this new government." So one should not be too deeply impressed by the frequent declarations of the "good old days" when attacks upon those in authority were rarely noted. The present tendencies are not different from the attitude of the American public at the outset of the newly constituted government following the Declaration of Independence.

THE CRISIS IN GERMANY

What happens when a majority of a people places its selfish interests and prejudices above the national good is illustrated by the present plight of Germany. While the monarchists would rather see the country ruined than saved by the republican government, the socialists place a vague internationalism above country. Between these two extremes is the party now in power, which is, however, utterly lacking in experience in the art of government and seems to have little prestige and less authority.

It possesses no men of any eminence, and if one chances to raise his head above the surrounding mediocrities the unscrupulous reactionaries decree his assassination and remove him by violence, as they did in the case of Rathenau, Erzberger and others. What has so far saved Germany from utter chaos is its well-trained and highly efficient bureaucracy. Up to now the state machine has continued to move by acquired momentum, but it is becoming more and more evident that it is beginning to slow down and to dislocate day by day.

This party, without prestige and without experience in the art of government, was suddenly pitchforked into power by a national convulsion, which momentarily put both reactionaries and socialist extremists under eclipse. But these are now both again in the field and threatening the existence of the new regime. It is, however, more than doubtful if their support can be bought at any price less than complete subservience; in other words, concessions which would only be another form of political suicide.

BANKING SERVICE FOR YOU

The service of this bank is so flexible that it can be suited to every man's need.

The farmer, the manufacturer, the merchant, the professional man finds here the exact service he requires. Your banking business is invited.

H. P. POWELL, President.

FUNERAL OF SCOTT LEWIS

The remains of Scott Lewis, who was killed on the Pennsylvania railroad just beyond Leonard Station yesterday morning, were removed to Leavy's undertaking parlors and prepared for burial. The funeral will be held from the home of his brother-in-law, Harry Shunkwiler on Hillsdale, Sunday afternoon at 2 o'clock. Interment will be made in Owens cemetery.

Inventor of Jirrikisha.

Although the Jirrikisha is part of our mental picture of Japan, a Philadelphia clergyman invented this horseless carriage less than a hundred years ago while paying a visit to the Orient.

Don't Jit.

Don't waste your life in doubts and fears. Spend yourself on the work before you, well assured that the right performance of this hour's duties will be the best preparation for the hours or ages that follow.—Emerson.

Unanimous.

"Have the ladies of the jury brought in their verdict yet?" "You mean 'Guilty' or 'Not Guilty'?" "Of course. What else?" "They decided that the woman in the case was a perfect tramp without leaving the jury box."—Birmingham Age-Herald.

Odd Custom in Denmark.

It is the custom for engaged girls in Denmark to wear a plain gold ring on the third finger of the left hand. When they get married the ring is moved to the third finger of the right hand.

Land Fish in India.

In India certain species of fish are five out of water a day or two, and on a hot summer's day they may be seen making their way rather clumsily across the fields.

"Priest of Most High God."

Melchizedek was a king of Sumer and "priest of the most high God," mentioned in Genesis 14:18-20. He met Abraham on his return from his victory over Chedorlosamer and gave him blessing, receiving tithes in return.

Worth-While Quotation.

"The measure of capacity is the measure of sphere to either man or woman."—Elizabeth Oaks Smith.

Diagnosis.

"Doctor, I dream constantly of falling over cliffs, of being chased." "Um, how often do you attend the movies?"—Index.

If You See Arnold

You'll See Better

I know eye troubles just as well as you know your own trade or profession and have had unusual success in doing away with them by the fitting of proper glasses.

If you're having trouble drop in and let me do away with them.

NEW BEAUTY SHOP

I have recently graduated from a school teaching the Marinella System and will open a Beauty Shop in the Harder Building on South Second street.

I will be glad to have you call for an appointment.

MARY DAVIES

South Second Street
H. & C. Phone 223-L

New York's "400" is speculating as to the social program of Mrs. George Gould, formerly Vere Sinclair, when the financier brings his bride home from Europe. The Goulds, you know have always been at the apex of the "400".

Refreshing Ignorance.

Mrs. Kewler—"I can't do without my mutual coffee." Mrs. Newrich—"Is that a good brand? We've tried so many that are poor."—Boston Transcript.

She Saw Him.

First Sorority Sister—"I'm sorry I couldn't have tea with you, dear, but you see—or I had a class." Second Sorority Sister—"Yes, darling, I saw him; some class!"—Judge.

Life as I See It.

Life is not a sprint, but an obstacle race. You might as well qualify for it on that basis.—Louisville Courier Journal.

Penguins Unafraid of Man.

The penguins of the antarctic regions are the most human of all the bird family, walking upright and living in communities, quite unafraid of man.

Bite of Information.

The phrase, "a feather in his cap," originated in an old custom in Hungary, which forbade any one to wear a feather in his cap unless he had killed a Turk.

The Lazy Man.

Nature is good and kind and all that, but it has no use for a lazy man. The minute he quits hoeing she starts filling up his garden with weeds.

Way Powell, of Clearfield, was a weekend visitor yesterday.

Miss Elizabeth Stewart of Clearfield, attended the dance at the Park last evening.

Miss Mary Alice Thompson is visiting Miss Frances Custer of Clearfield.

Mr. and Mrs. F. H. Passmore and daughter, Clara May, of Clearfield, were in Clearfield last evening in Curwensville.

Mr. and Mrs. R. R. Robinson entertained several friends Thursday morning at their home on State street

Mr. and Mrs. D. P. Wall and daughter, Elizabeth and Alice left in their car this morning for Buffalo, N. Y. They will be gone for several days.

Mrs. H. S. Blair was called to Philadelphia on Wednesday on account of the illness of her son.

Rev. William Ganoe, of Jersey City, will preach at the Curwensville Methodist church Sunday morning at 11 o'clock.

Mystical Properties of Gems.
In a volume on the mystical properties of gems are given the following: January, garnet; February, amethyst; March, bloodstone; April, diamond; May, emerald; June, pearl; July, ruby; August, sapphire; September, topaz; October, opal; November, citrine; December, turquoise. Among the legends there are many beliefs concerning the mystical properties of gems in curing sickness and in bringing good or evil to the wearer. Certain of the mystical beliefs persist in some parts of the present day.

"The Blues."
This phrase, descriptive of moods of depression or melancholy, has an interesting origin. It was formerly believed that working with indigo dyes caused fits of melancholy, as the chemical worked on the system through the skin. As the dyes were nearly always stained blue in parts of the body, the phrase came into current use to express low spirits or moodiness.

Yield of Victor Hugo.
Of Victor Hugo it is told that once when a word used in one of his poems was criticized as "not French," he simply replied: "It is now." The story may not be true, but it might have been, for no doubt, if criticism had risen, Victor Hugo was quite capable of saying just that, and of believing it, too. Moreover, his confidence in his power was not without excuse, or even reason, for in his day his right to increase the French vocabulary was about as good as that of anybody else.—New York Times.

Thought Opals Lucky.
Queen Victoria was not superstitious about opals. In striking contrast to her unfortunate contemporary, the Empress Eugenie of France, who had a deep-rooted fear of them, Victoria thought them to be both beautiful and lucky. She had a pair of opals made for each of her daughters as a wedding gift.

Toothbrush Case.
Art tickling is very appropriate for making toothbrush cases. They should be lined with gum tissue and finished with seam binding around the edge with loops to hang by. Always place the bristle end inside to protect from dust germs.

Keeps Her on Edge.
Everything may be a terribly old and dried certainty with a married woman, except this: She never knows what her husband will get mad at next.

Too Much.
A very stout man mounted the scales in a downtown drugstore the other day and dropped a penny in the slot. There was some wait, and the clanking and rattling of the levers of the contraption, and the pointer finally came to rest somewhere not far from the 300 mark. There was an unseen witness to the ceremony, and, as the fat man woefully contemplated the result, the voice of a wee small boy piped up from behind him: "Say, mister, how many times do you go around?"

Help Wanted.
He—"Two can live as cheaply as one and we could start out by doing housekeeping." She—"That would be fine if we only knew where we could find a vacant light-house."

Help Wanted.

Two hundred striking rail workers at Childress, Tex., are working overtime—and for no pay. They're helping sick farmers work their crops. Here are some of them who in four hours worked 10 acres of cotton for Claude Tucker.

Bath in West Africa.
The bath of West Africa makes elaborate preparations for a real soak by digging a hole in the ground, in which he puts seven herbs, a quantity of peppers, carmelum seeds and bushes, then he pours in a lot of boiling hot water. After he gets in, a light frame covered with clay is put over the hole to keep in the steam. After hours of steaming the bather emerges and is washed off with clean water, then kneaded by a professional for one hour, when he dons his scanty clothing and goes his way "shivering with cleanliness."

Oysters Grow on Trees.
In the Farantia harbor of Italy the sight of oysters growing on trees may be seen. This does not mean that the oysters grow like apples and such fruit, but it is the custom there, where the oysters are cultivated, to put trees into the water for the young oysters to cling to. This scheme is said to have been devised by a fisherman who could otherwise be devoured by fish before they had a chance to develop. The trees are placed in the water with their trunks up and when it comes time to transplant the oysters the trees are taken up bodily and carried to the new grounds, saving much labor.

Pipe Arch Bridge.
An engineering curiosity, said to be unique to this country and to have only one parallel in Europe, is the pipe arch bridge over the Sudbury river which carries Boston's water supply. The span is eighty feet, and the steel pipe, seven and one-half feet in diameter, rises five and one-half feet above the horizontal at the center. The pressure on the abutments when the pipe is filled with water is great and is resisted by a mass of concrete forty feet thick behind each abutment. Across the curved top runs a hand-called foot bridge. The steel of the pipe in the arch, portion is five-eighths of an inch in thickness.

Barking Dog Owner Jailed.
When a dog barks at night in Japan the owner is arrested and sentenced to work for a fixed time for the neighbors whose slumbers may have been disturbed.

FIRST ATTEMPT TO MINE COAL UNDER HARDING PLAN HAS 350 TROOP SUPPORT

Washington, Pa., July 22.—On a high hill overlooking Pigeon Creek Valley, scene of the first attempt to produce coal under the Harding plan, 350 troopers encamped at dawn today. The troopers, equipped with field kitchens, tents and all necessary military paraphernalia, established a camp on the C. M. Flager farm at Cokesburg. They are prepared to remain an indefinite period. The Flager farm looks down on the Wilson mine and the numerous other properties attacked by armed strikers in the past week. The troops, it is understood, will not furnish protection to the mines resuming operation but will patrol highways and act as an auxiliary to the State Police. The Wilson mine resumed operations several weeks ago under heavy guard and is producing about five cars of coal per day.

Washington, Pa., July 22.—Meanwhile reports of violence were received by Captain Smith at regimental headquarters here. Strikers were reported to have dynamited the home of a mine worker at Youngwood, West moreland County, when he failed to quit work at the Penfield Mines of the Keystone Coal Company. No one was

injured in the explosion. Bloodhounds are being used by State Police in an effort to apprehend those responsible for the wrecking of an engine and 5 cars of coal on the Dunlap Branch causing serious injury to a brakeman James Sutton. Traffic on this branch will be tied up all day.

Ebensburg, Pa., July 22.—Striking miners planned a demonstration at South Fork this afternoon to protest against Governor Sproul's proclamation prohibiting mass meetings during the occupation of the National Guard. Major Edgar McKinney, commander of the 575 troops in Cambria and Somerset Counties, announced that the proposed mass meeting was a violation of the law, but he refused to say whether he would take steps to stop it. The decision to hold the meeting was made following a conference between J. P. Mark, representing District No. 2, Major McKinney and David Cowan, an organizer. Cowan insisted that the meeting be held. The strikers were said to have agreed with Cowan and went ahead with plans to conduct the meeting.

SEVEN PERSONS KILLED AS PASSENGER TRAINS MEET IN HEAD-ON COLLISION

Logan, Mo., July 22.—Five persons were killed and a score or more seriously injured when M. K. & T. passenger train No. 9 and Katy & Frisco train No. 2, collided head on here. Engineer C. H. Ring, of No. 9, was instantly killed. An unidentified man, a woman and two children also met instant death. Both trains were running late. The west bound train was running at high speed and No. 2, eastbound, was slowing down and had almost stopped to meet the west bound passenger, it

was stated. Logan, Mo., July 22.—Seven persons were killed and at least forty others injured in a terrific head on collision between the Meteor and the Texas Special, two crack trains on the Frisco railroad here at 4 o'clock this morning. The known dead are C. H. Ring, engineer of the Meteor and his fireman, George Nealy, and five unidentified passengers on the Texas Special, a man, a woman and 3 children.

BROPHY ASKS FOR FREE SPEECH AND RIGHT TO ASSEMBLE

President John Brophy, president of District No. 2, United Mine Workers, having learned that state police of some of the sections of the district, have issued warnings that further open air meetings would not be permitted, has addressed a telegram to Governor William Sproul, protesting against the orders. The telegram is a very vigorous presentation of facts and is as follows:

"William C. Sproul.
"Harrisburg,
"For almost four months the miners of Central Pennsylvania have been holding scores of peaceful open air meetings to discuss matters pertaining to their common good. Law and order have been maintained and good will has prevailed. The strike has been conducted in a peaceful and orderly manner. We are now informed that orders have been issued from Harrisburg prohibiting these open air meetings which are being held on private property, which is leased for that purpose. This is an unwarranted invasion of the rights of assembly guaranteed by the constitution of Pennsylvania and of the United States and as a citizen of state and nation we, the United Mine Workers of Central Pennsylvania, protest against setting aside of our civil rights which should be as carefully safeguarded as our rights of properties. Will you not, therefore, rescind this order, which nullifies our constitutional rights. Please re-"
"Signed JOHN BROPHY, Pres.
"Dist No. 2, U. M. W. of A."

L. G. Runk, one of Philadelphia's live wire business men, was a Clearfield visitor today.

About one dozen of her friends helped Mrs. Edith Fauver celebrate her birthday. A highly enjoyable time was had and delicious refreshments disposed of.

SHIPPING BOARD WILL HAUL COAL

Washington, D. C., July 22.—The Shipping Board is ready to put a huge fleet of vessels into service to bring coal from Wales into this country to make an attack upon the impending coal famine which threatens to cripple the industries of the nation. The first steps looking to the importation of coal have been taken by the Board. J. B. Smull, Vice president of the Merchants Fleet Corporation, announced that judging from recent dispatches a comprehensive program has been formulated by the Board. Already forty Shipping Board vessels have been chartered for the service and arrangements have been made to obtain thirty-one more British ships. It is believed that in this way 500,000 tons of coal per month can be delivered in this country.

PITTSBURGH BANK HEAD TO TESTIFY

Harrisburg, Pa., July 22.—John A. Bell, Pittsburgh banker, will be the star witness when the hearings of the State Treasury investigation are resumed here next Monday. Five men who were entered on former State Treasurer Hammon M. Kephart's contingent fund vouchers as employees in the State Treasury have been subpoenaed to testify as to the circumstances under which they were employed. W. J. Hoffman, of the State police, will be called to testify regarding the affidavit of Harry Berlin to the effect that he had never worked for the State Treasury Department.

CAMBRIA STEEL TO GRANT WAGE BOOST

Johnstown, Pa., July 22.—The Cambria Steel plant of the Midvale Steel & Ordnance Company today announced a 14 per cent wage increase effective August 1st. The increase does not extend to the employees of the mining department of the Cambria.

UNITED SUPPORT OF ENTIRE A. F. OF L. BACK OF STRIKERS

Legislative Representatives of All The Labor Unions Take Such Action at Washington.

LEADERS NOTIFIED

Washington, D. C., July 22.—The united support of the entire American Federation of Labor was pledged to the striking miners and shopmen today as the result of action taken by legislative representatives of all of the labor unions. The following telegram was sent to President Lewis, of the miners, and Bert M. Jewell, of the shopmen, by Samuel Gompers: "It was the unanimous conclusion that we telegraph you in the name of the conference that the strike has our full sympathy and support and that we wish you every success for an honorable adjustment in the present controversy." Reports made to the conference from various sections of the country indicate a rising public sympathy in favor of the men who are fighting for right and justice."

STRIKE AT BALDWIN LOCOMOTIVE WORKS POSTPONED A WEEK

Philadelphia, Pa., July 22.—Hearing that a general strike was to be called at the Baldwin Locomotive Works, fifty mounted policemen were assigned to guard duty there today. The mounted police were sent to relieve the police reserves which were already on duty at the works. A walk out was scheduled for midnight, but it was learned today that the proposed strike had been postponed for one week. The reason for the walk-out could not be learned.

THIRTY THOUSAND STRIKING MINERS BACK TO WORK

Harrisburg, Pa., July 22.—Thirty thousand striking miners have gone back to work in the State since June 4th, the Department of Labor announced today. There were 270,198 miners out on strike in Pennsylvania today, according to the report. Including Altoona, Erie, Pittsburgh and Philadelphia districts where conditions made it impossible to ascertain the exact situation, 9981 were reported out in connection with the railroad shopmen's strike.

WINBURNE AUTO TURNS TURTLE ON SANDY RIDGE ROAD

A Dodge Touring Car driven by Richard Gray, Jr., of Winburne left the road on a curve between Sandy Ridge and Osceola last night and going down over the bank turned upside down. Four other young men from Winburne were in the car with Gray and all escaped with slight injuries. Thomas Charlton knocked a few splinters off his "bean" when he hit a rock kaffer being catapulted out of the car, while Donald Barr and Gray were also considerably bruised and cut up.

9,000 LAKE SEAMEN JOIN IN UNREST

Cleveland, July 22.—A strike of 9,000 lake seamen, which would tie-up lake navigation loomed here today. The seamen are protesting against this year's wage cut, declaring that the reduction of last year was sufficient.

PUTTING IN NEW FRONT

Contractor Ashley Rishell has started a crew of men to work putting in the new front at the A. W. Leonardson Company store on Market street.

COAL PRICES SOAR AS RESULT OF MINE STRIKE SHORTAGE

Retail Dealers with Bins Nearly Empty, Boost Prices As Much As Seventy-five Per Cent.

RAIL STRIKE CAUSE

New York, N. Y., July 22.—Coal prices have advanced all over the country as shut down of industries loomed nearer, it was learned here today. Retail dealers with their bins nearly empty boosted prices in some cases 75 per cent or to double that before the rail and coal strikes. Inability of the railroads to move cars to and from the mines added to the crisis. Many plants and factories rushed the installation of oil burners in an effort to keep operating. Indianapolis reported the prices of West Virginia coal \$5.50 higher a ton, while other kinds of coal increased correspondingly. Retail dealers supplies were virtually exhausted through out the state. Prices in Columbus advanced \$1.00 per ton. On the Pacific coast dealers were advancing prices while conditions were unchanged otherwise.

"HUMAN FLY" WILL CLIMB DIMELING HOTEL AT 7 P. M.

Billie O'Brine, the real "Human Fly", will climb The Dimeling Hotel this evening at 7 o'clock. O'Brine climbed the Hotel Phillips at Philadelphia last evening, his hair raising feat, being witnessed by an audience which completely packed the square about the hotel.

He climbed The Dimeling at 2:30 this afternoon for the edification of a large crowd. His stunt is full of thrills and is worth seeing, if you care for hair raising stunts. Not having the hair with which to qualify it don't appeal to us, but we'll likely be in the crowd this evening at that.

WHOOPIING COUGH TAKES SHORT SPURT

Secretary Gaulin's report of the public health for the past week shows that six cases of whooping cough, one of diphtheria and one of chicken pox developed during the week.

The total number of cases under quarantine at this time is fifteen. Three cases were released from quarantine during the week.

The communicable diseases under quarantine are as follows:

First Ward—Whooping cough, 3.
Second Ward—Whooping cough, 6; chicken pox, 2; diphtheria, 1.
Third Ward—Not a single case.
Fourth Ward—Chicken pox, 3.

WILL ORGANIZE REAL ESTATE MEN

The real estate brokers or agents of Clearfield county and Phillipsburg will organize a branch of the State Association at a meeting to be held at the Dimeling Hotel at 9 o'clock Monday morning, July 24.

The Executive Secretary of the State Association William H. Hay, of Philadelphia, will be present and explain the purposes of the organization.

The primary object of the organization will be the securing of additional legislation, which will put the real estate brokerage business upon a substantial basis and thus be of benefit to both the agent and owner of the property handled.

REMODELING OFFICE BUILDING

Contractor A. E. Hess has a crew of men at work converting the Powell home on Market street into an office building for the Clearfield Water Company, which concern recently purchased the property. The office of the Water Company will be located on the ground floor, next door to the post office.

PENNSYLVANIA R. R. WILL CONTINUE TO FIGHT LABOR BOARD

Pennsy Vice-Pres. Notifies Employees Decision Favorable To Ruling Would Be Appealed.

TO HIGHEST COURT

Philadelphia, July 21.—A statement issued by W. W. Atterbury, vice president in charge of operation of the Pennsylvania railroad, to all employees, late today, notified them the company intends to stand by the agreements reached between the elected representatives of the employees and the management. The Federal court of appeals at Chicago yesterday decided against the company in its dispute with the railroad labor board. Atterbury announced the company intended to appeal the decision to the United States supreme court.

Chicago, July 21.—Dismissal of the Pennsylvania railroad's injunction against the United States railroad labor board and reversal of the district court's decree was formally entered today in the United States circuit court of appeals with the filing of the court's opinion in the case.

The court declared, that in rendering decisions to which the Pennsylvania objected, the board did not transcend its power under the transportation act.

After a review of the case, which originated when the road declined to hold certain elections prescribed by the board to select an employees' committee to negotiate working rules, the opinion waived the question of whether decisions of the board are enforceable. The injunction was only to restrain the board from publishing decisions condemning the road.

"Hand Is Quicker Than The Eye"—Sure

"Moe" Robinson had long heard it said that the hand was quicker than the eye. He didn't believe it; he does now. Last evening "Moe" piled several local friends into his car and went to the Clark circus at Curwensville. In the side show at the circus, ground an inoffensive cadaverous looking individual was nervously toying with three cards upon a small table. He was carefully turning back corners from time to time and casually offering the challenge that not a single individual could pick out a particular card even though he would turn back a corner to show him which was which.

The operator got so earnest in his proposition when "Moe" stuck his back into the ring of rubes surrounding the table, that he offered to bet money on his contention and as an earnest of his skill and ability, "Moe" looked the affair over very carefully, decided the fellow wasn't so slick as he thought he was, and when satisfied he himself could call the turn of the card, he so far forgot his usual objection to games of chance as to offer to wager five good hard dollars that he could pick up the "right card."

The "artist" was willing, "Moe" deposited his five spot, and made the test. He now knows all about the relative speed of the hand versus the eye, and as it cost him five dollars to find it out, he promises to remember it. Barnum was right, "there is one born every minute."

FAMOUS BRITISH PUBLISHER VERY ILL

London, England, July 22.—Lord Northcliffe, owner of the London Times and several other publications is in the most critical period of his recent serious illness. The famous publisher's condition was described by physicians as giving rise to great anxiety. A fever caused by toxic poisoning remains unabated, the doctors declared.

Mrs. W. W. Howe is confined to her Market street home by an attack of diphtheria.

PRESIDENT HARDING EXPECTS TO HAVE PLAN FOR ENDING RAIL STRIKE WORKING WITHIN COMING FORTY-EIGHT HOURS

Summons Ben W. Hooper, Chairman Of Rail Labor Board, To Washington For First Hand Knowledge Of Differences Between Contending Forces And Will Bring Them Together.

WASHINGTON BELIEVES SOLUTION NEAR

WASHINGTON, D. C., July 22.—Within forty-eight hours President Harding will move to end the rail strike. The executive today sought a solution of the nation-wide tie-up in a conference with Ben W. Hooper, Chairman of the Rail Labor Board, summoned from Chicago, and first-hand accounts of all questions at issue and the positions of the warring factions in the Labor Board's negotiations are demanded by President Harding. The President will then determine what action he can take toward settlement of the strike. It is believed he will bring railroad executives and union leaders together for a peace conference.

Washington, D. C., July 22.—As Ben W. Hooper arrived to confer with President Harding a feeling of optimism for a settlement of the railroad strike was prevalent among Administration officials. For the first time since the shopmen's walk-out Cabinet members believed that a settlement can be arrived at in the near future, on account of the following conditions:

FIRST.—A willingness of an increased number of roads to take back the strikers, giving them their full seniority rights.
SECOND.—The inference of E. F. Grable, president of the Maintenance of Way employees, that the strike order of his union would not be executed. Chairman Hooper said that the western and southern roads in general are ready to restore seniority privileges to the workers, but the eastern roads feel that they will be unable to do so because they have advertised that men taking the places of strikers would receive the same rights as the former employees.

Washington, D. C., July 21.—Determined to obtain a first hand view of the railroad strike situation, President Harding today called Chairman Hooper of the rail board here from Chicago for a personal interview tomorrow. Prior to summoning the labor board head, the President received Chairman Cummins and Senators Kellogg and Watson of the Senate interstate commerce committee, who reported on their conference last night with Eastern rail executives and later the whole question was taken up for discussion in a prolonged cabinet session.

The President was presented as desirous of hearing from Mr. Hooper on account of the positions taken by leaders of striking shopmen, rail executives, and the board itself during the negotiations aimed at a strike settlement, but which now have been broken off some conflicting reports on the matter have been received at the White House, especially since the conference held last night by the three interstate commerce committee senators and executives of the larger eastern trunk lines.

Meanwhile Attorney General Daugherty conferred at the capital last with Senator Borah, chairman of the Senate labor committee and then with Mr. Cummins the discussions involving the possibility of legal action in both the rail and the coal strikes, although the attorney general stated afterward that no immediate legal proceedings were contemplated.

With Mr. Borah, the attorney general discussed particularly the rail strike situation in the west, while with Mr. Cummins he went over not only the western problems, but the entire legal situation as it concerns both rail and coal strikes, the result being Mr. Daugherty said, that he and Mr. Cummins were in agreement as to the Governments' power to act in both cases.

U. S. Authority Ample
"I haven't any doubt" the attorney general said later "that the Government has as much power and authority to protect men producing coal which is indispensable to transportation, as it has to protect men moving mails and interstate commerce. The Government has full power and authority to see that production incident to transportation is not interfered with."

Dan Connelly left yesterday for Snow Shoe, where he will spend the coming week with his sister, Mrs. E. A. Markel.

Miss Isabella McBlain, clerk in District Attorney Arnold's office, left yesterday for Cleveland, Ohio, where she will spend her vacation with relatives.

IMPROVED ROADS BY THE SPROUL REGIME TOTAL 1500 MILES

State Highway Dept. Has Laid 150 Miles of Improved Roads Thus Far In Year 1922.

RECORD FOR U. S. A.

Harrisburg, July 21.—The State Highway Department up to the present time during the 1922 construction season has put down approximately 1500 miles of durable highway.

Since the beginning of Governor Wm. C. Sproul's administration the State Highway Department has completed, with this week's work, a total of approximately 1,500 miles of durable highway in various sections of the state. This is a greater mileage of modern type road than was ever put down by an American state in the same period of time.

Operations of the Highway Department during 1922 have been interfered with by the unseasonable rains, which in their frequency have rivalled the rains which interrupted the Department's work during the forepart of the Summer of 1919. The United States Weather Bureau reports that during the 82 days of May, June and July, this year, there has been rain on 34 days. This would seem to be the average for Pennsylvania, but in some regions of the state the rainfall has been even more frequent. Rain works havoc with the contractors on highway work because not only must they close down during the time of the rain, but after the rain until such a time as the sub-grade is dry.

INDIANA GOVERNOR OFFERS TO UMPIRE

Indianapolis, Ind., July 22.—Governor McCrav today invited mine owners and striking miners of Indiana to meet in his office next Tuesday to arbitrate their differences. Letters were sent to John Hessler, District President of the United Mine Workers, and Phil Penna, spokesman for the operators.

Rev. E. C. Reeve and daughter are visiting relatives and old home scenes at Hopkinton, Iowa, at present.

WAITER'S SLANG AT JORDAN'S

"Mutton Broth in a hurry," says the customer
"B. abaa in the rain, Make him shout," shouts the waiter.
"Beefsteak and onions," says the customer
"Johnny Bull! Make him gunny," shouts the waiter
"Where's my baked potatoes?" asks the customer
"Mrs. Murphy in a seal skin coat!" shouts the waiter.
"Two fried eggs. Don't fry 'em too hard," says the customer.
"Adam and Eve in the garden! Leave their eyes open!" shouts the waiter
"Poached eggs on toast," says the customer.
"Bride & groom on a raft in the middle of the ocean!" shouts the waiter.
"Hash," says the customer
"Gentleman wants to take a chance!" shouts the waiter.
"I'll have hash, too," says the next customer.
"Another sport!" shouts the waiter
"Glas, of milk," says the customer
"Let it rain!" shouts the waiter
"Frankfurters and sauerkraut, good and hot," says the customer
"Flour, Soap and a bale of hay!" shouts the waiter, and let 'em sizzle!

A whole lot of the American people did not spend all of their war profits. Listen to this:
Total savings deposits in banks amount to \$16,500,000,000, according to an exhaustive study just completed by the American Bankers' Association.
The present figure of sixteen and a half billions includes savings deposits, certificates of deposit of thirty days and over, and postal savings, for which the most complete data yet compiled has been obtained through a special nation-wide inquiry made in co-operation with the Controller of the Currency, the supervisors of State banks and individual bankers.

The third Germin-American National Conference held at Chicago last week, and presided over by George Sylvester Viereck is still mad at those Americans who helped lick Germany, and feel correspondingly grateful to those U. S. Senators who labored so hard for Germany's cause before, during and since the Kaiser got such a beautiful kicking. As was to be expected under the circumstances resolutions were adopted pledging the German vote to Senator Beveridge of Indiana; France, of Maryland, and Reed of Missouri. The conference also demanded revision of war treaties, withdrawal of Negro troops from Ger-

many; approved the inquiry into the Alien Property Custodian's office; endorsed a constitutional amendment requiring a referendum to declare war except in case of actual invasion; and demanded immediate return of beer and wine.

The Rev. William Rice, Kentucky mountaineer preacher, who has fasted for 70 odd days, is believed to be dying at his mountain cabin home. He has refused all food since he began his fast and has drunk only water. Rice has lost the power of speech and his features are set as if already under the seal of death. The ability to walk deserted him last week and he was placed in bed, since being able to move his arms and legs only slightly. He can turn his head on the pillow.

The family has arrived, and, sitting about his bedside, await the end of one of the most peculiar cases the mountains have ever known. Rice is a preacher and scores of people have gathered daily about the home of the fifty-year-old faster. For twenty years he has traveled through the mountains holding evangelistic meetings. He could not make much of a living with his ministry, and May 15 last was arrested and placed in jail at Mount Sterling, Ky., as a vagrant. There he refused to eat. After nine days of voluntary starvation in jail he was released and walked forty miles to his home. There Rice announced he would never eat again, saying God in a vision told him to make the sacrifice of himself to convert his neighbors to Christianity. He said the devil has constantly tempted him, but that he was being ministered to by spirits and therefore needed no food. For several weeks, he has lain beside his bed a Bible, fan, trumpet and cross with a likeness of Christ pinned to it.

The Interstate Commerce Commission has made final settlement with three large railroad companies on account of the Federal guarantee against losses sustained by them during the six months of 1920, immediately following the suspension of Government operation. To the St. Louis and San Francisco, which was entitled to \$5,355,449, went a balance of \$865,449; to the Fort Worth and Rio Grande, a final payment of \$261,885, on a guarantee of approximately \$418,000, and to the St. Louis, San Francisco and Texas, with a total claim of \$314,967, a final payment of \$114,967.

LEGAL PROGRAM IS ABOUT READY

Washington, D. C., July 22.—A complete program of legal action to protect public interests has been prepared by the Department of Justice. The Government will apply to the coal strike the principle that the mining of coal is in exactly the same status as the protection of the mails or of interstate commerce. Guided by this principle Attorney General Daugherty has all his plans made for sweeping court action to protect coal producers who will obey the President's injunction to reopen their mines. Daugherty has obtained the endorsement of Senator Cummins and other officials for his position.

Maturity's Debt to Youth.

Friday, Aug. 5, Machine Shop Court—Lytle and Adams, West Side; Hudson and Hudson, Ogden Avenue.
Saturday, Aug. 6, Machine Shop III.

Second Ward Tennis No. 1

Five companies 4 and 3 played off a little match of volley ball last night on the Reedsville court, three of the four games going to Number Two. Both teams have been at it pretty regularly, so some of the Warders present thought it good enough to ask the winners over to the West Side court Monday evening. This is a better sport than a lot of people realize, so take a look—see Monday night around seven—you may want to get into the game. Community Service is at the bottom of this, incidentally.

Peppish Pedagogue.
There are some submitted with jar on the susceptibility of pupils. A story is told of an Oxford don who, after hearing the viva voce of an undergraduate, passed this undergraduate as a "peppish" fellow. The Greek professor is disconcerting, your Latin probe is disgusting, your translation is disgusting and your name is "mathematical."

Speed of Fast Locomotives.
The modern express passenger locomotive can run at the rate of 112 miles per hour on a heavy rail and straight track, provided there is a rail behind it to prevent it from slipping the track.

The Word Cockle.
To worry the cockles of one's heart has several strange derivations. The word cockle is said to have been derived from the resemblance in shape between a cockle shell and a heart; from the resemblance between the green wood for heart, kardia, and the Latin word for cockle, cardium; and from the Latin word cockle, meaning ventricle, a small cavity in an animal body.

Fellow Sufferers.
Dryden—"No, sir," don't know what whisky tastes like. Wetmore—"I understand. Since we've been reduced to this synthetic stuff I, also, have forgotten what real whisky tastes like."

Goat Leads Milk Production.
The goat produces more milk, and is more intelligent than any other animal kept for production.

A Distinct Story.
"Egora, if you're there wance wuz an Orlisbman named Pat. Wuz day he bane walk in the shroet and he seen it his friend O'Grady with a girl. Nu, says Pat next day to O'Grady, 'Dit's a bababab madd' an done see you a-walkin' with yestiddy. Who was it dot lady?' 'Saprist! I answered O'Grady, with a rich bridge, 'She's nuf, dat I'll gal don't no lady. She hane me wuz."

COMMUNITY SERVICE BASE BALL SCHEDULE TWILIGHT LEAGUE

Monday, July 24th, 6 p. m. at Reedsville, I. O. F. vs. Hillsdale.
Wednesday, July 26th, 6 p. m. at Reedsville, Reedsville vs. Red Men.
Friday, July 28th, 6 p. m. at Park Gearhart vs. K. of C.
Tuesday, July 25th, 6 p. m. C. I. C. vs. Luthrans.
Thursday, July 27th 6 p. m. Brotherhood vs. Presbyterians.

BE SURE YOUR KIDDIES GET SAFE MILK
They're probably drinking more milk than usual just now while they're so busy playing and the thing for you to do is to see that they get safe milk—that will not only be a pleasure for them to drink but a surety against the many germs that lurk in milk that has not been properly cared for.
Pasteurization will make the milk we serve to our customers as pure as any milk can possibly be and you'll find that your family doctor will tell you a lot about this process if you'll ask him.
Clearfield Dairy Co.

MEETING OF LOCAL W. C. T. U.
A meeting of the W. C. T. U. was held at the home of Mrs. Hile on Pine street Thursday evening. "The Feast of Fete" was read by Mrs. Hile, representative of the Feast of Belshazzar in Babylon, where wine and revelry prevailed and wrought ruin to this ancient City and Kingdom.
Mrs. Runk read an article on the shipping of liquor from other countries into the U. S. and an Amendment to the Tariff Bill by Senator Sterling proposing a Dry Zone at sea of eighteen miles. Other nations have found it necessary to extend the three mile limit to 10 or 12 miles.
A short report was given of the late Institute by Group 2, held in West Clearfield M. E. church. It was moved and carried that the next meeting, a social meeting be held in the West Side Park.
Excellent refreshments were served by the hostess, during which time her son Edward delightfully entertained with pleasing selections on the piano.
Some of the members have gained their share to make up the 83,000 gain in membership.

Turned Down.
"Boss," whined the beggar, "speak to me as man to man, I'm hungry."
"Friend," replied the pedestrian, "speaking as man to man, I have just one dime left for car fare and I propose to see that a greedy corporation gets it."—Birmingham Age-Herald.

All That Happened.
My tiny niece has a propensity for playing with the telephone, for which she has received many scoldings, but to little avail, writes a correspondent of the Chicago Tribune. Her mother heard a crash the other day and called in "Viola, what have you done?" The little miss replied: "I didn't hurt it this time, mother. Just the 'number, please,' came out."

Don't neglect that cough. Wrench's Glycyrrhols or Tar and Wild Cherry will give relief without harmful dose or alcohol. 25c and 50c.

Wood and Paper Picnic Supplies
What's the use of taking a lot of regular home china or the silverware with you on that picnic that you'll probably make over the week-end? Why not use paper plates and the like and wooden spoons, forks and knives—you'll be surprised to see these wooden knives cut.

Then after you're through eating all you have to do in the way of washing dishes is to gather everything in a heap and touch a match to the pile and presto! the dishes are washed.

Kurtz Stationery Store

HAVE ANY FURNITURE NEEDING REPAIRS?
Well, we now have the awning work in fine shape for the summer and are turning our attention to the repair work again. We have done some remarkable work on repair jobs and have surprised the folks who gave us the jobs to do.
What have you that will again become useful after we are through with it?

THRIFT HABIT GROWING

The oft-repeated charge that Americans are a wasteful people and have never acquired the thrift habit is given a hard jolt by figures on savings bank deposits just announced by the American Bankers' Association. The announcement that \$16,500,000,000 is deposited on savings accounts in banks of the country, including the postal savings system, does not impress the average person as forcibly as when this figure is reduced to per capita terms. Thus apportioned it represents \$265 for every man, woman and child in the country.

Many of the country's leading bankers looked for a substantial dropping off in savings deposits from the peak reached during the hectic war days, but instead the total has increased by many millions. This would indicate that Americans have cultivated the habit too well to rush to the banks for their "rainy day" fund at the first signs of adversity. The savings account has become a firmly established institution in practically every American home, a permanent result of the Liberty loan drives and war thrift campaigns that makes pessimism about the country's future look silly.

NOTHING NEW

The trite saying, "There's nothing new under the sun," never was more of a truism than when applied to attacks on Congress. Since the days of Washington and Jefferson it has been the great national pastime. In 1788 former Revolutionary soldiers marched upon Congress at Philadelphia to demand compensation for their services in the war and so frightened the solons that they fled to Princeton and held secret sessions. The new constitution when first proposed aroused particularly virulent attacks. Anent this Hopkinson wrote to Jefferson in 1788:

"You will be surprised when I tell you that our public newspapers have announced General Washington to be a fool influenced and led by that knave, Dr. Franklin, who is a public defaulter for millions of dollars; that Mr. Morris has defrauded the public out of as many millions as you please and that they are to cover their frauds by this new government." So one should not be too deeply impressed by the frequent declarations of the "good old days" when attacks upon those in authority were rarely noted. The present tendencies are not different from the attitude of the American public at the outset of the newly constituted government following the Declaration of Independence.

THE CRISIS IN GERMANY

What happens when a majority of a people places its selfish interests and prejudices above the national good is illustrated by the present plight of Germany. While the monarchists would rather see the country ruined than saved by the republican government, the socialists place a vague internationalism above country. Between these two extremes is the party now in power, which is, however, utterly lacking in experience in the art of government and seems to have little prestige and less authority.

It possesses no men of any eminence, and if one chances to raise his head above the surrounding mediocrities the unscrupulous reactionaries decree his assassination and remove him by violence, as they did in the case of Rathenau, Erzberger and others. What has so far saved Germany from utter chaos is its well-trained and highly efficient bureaucracy. Up to now the state machine has continued to move by acquired momentum, but it is becoming more and more evident that it is beginning to slow down and to dislocate day by day.

This party, without prestige and without experience in the art of government, was suddenly pitchforked into power by a national convulsion, which momentarily put both reactionaries and socialist extremists under eclipse. But these are now both again in the field and threatening the existence of the new regime. It is, however, more than doubtful if their support can be bought at any price less than complete subservience; in other words, concessions which would only be another form of political suicide.

BANKING SERVICE FOR YOU

The service of this bank is so flexible that it can be suited to every man's need.

The farmer, the manufacturer, the merchant, the professional man finds here the exact service he requires. Your banking business is invited.

FUNERAL OF SCOTT LEWIS

The remains of Scott Lewis, who was killed on the Pennsylvania railroad just beyond Leonard Station yesterday morning, were removed to Leavy's undertaking parlors and prepared for burial. The funeral will be held from the home of his brother-in-law, Harry Shunkwiler on Hillsdale, Sunday afternoon at 2 o'clock. Interment will be made in Owens cemetery.

Inventor of Jirikisha.

Although the Jirikisha is part of our mental picture of Japan, a Philadelphia clergyman invented this horseless carriage less than a hundred years ago while paying a visit to the Orient.

Don't Jit.

Don't waste your life in doubts and fears. Spend yourself on the work before you, well assured that the right performance of this hour's duties will be the best preparation for the hours or ages that follow.—Emerson.

Unanimous.

"Have the ladies of the jury brought in their verdict yet?" "You mean 'Guilty' or 'Not Guilty'?" "Of course. What else?" "They decided that the woman in the case was a perfect tramp without leaving the jury box."—Birmingham Age-Herald.

Odd Custom in Denmark.

It is the custom for engaged girls in Denmark to wear a plain gold ring on the third finger of the left hand. When they get married the ring is moved to the third finger of the right hand.

Land Fish in India.

In India certain species of fish are five out of water a day or two, and on a hot summer's day they may be seen making their way rather clumsily across the fields.

"Priest of Most High God."

Melchizedek was a king of Sumer and "priest of the most high God," mentioned in Genesis 14:18-20. He met Abraham on his return from his victory over Chedorlosamer and gave him blessing, receiving tithes in return.

Worth-While Quotation.

"The measure of capacity is the measure of sphere to either man or woman."—Elizabeth Oaks Smith.

Diagnosis.

"Doctor, I dream constantly of falling over cliffs, of being chased." "Um, how often do you attend the movies?"—Index.

Mrs. H. S. Blair was called to Philadelphia on Wednesday on account of the illness of her son.

Rev. William Ganoe, of Jersey City, will preach at the Curwensville Methodist church Sunday morning at 11 o'clock.

Mystical Properties of Gems.
In a volume on the mystical properties of gems are given the following: January, garnet; February, amethyst; March, bloodstone; April, diamond; May, emerald; June, pearl; July, ruby; August, sapphire; September, topaz; October, opal; November, citrine; December, turquoise. Among the legends there are many beliefs concerning the mystical properties of gems in curing sickness and in bringing good or evil to the wearer. Certain of the mystical beliefs persist in some of the present day.

"The Blues."
This phrase, descriptive of moods of depression or melancholy, has an interesting origin. It was formerly believed that working with indigo dyes caused fits of melancholy, as the chemical worked on the system through the skin. As the dyes were nearly always stained blue in parts of their bodies, the phrase came into current use to express low spirits or moodiness.

Yield of Victor Hugo.
Of Victor Hugo it is told that once when a word used in one of his poems was criticized as "not French," he simply replied: "It is now." The story may not be true, but it might have been, for no doubt, if creation had risen, Victor Hugo was quite capable of saying just that, and of believing it, too. Moreover, his confidence in his power was not without excuse, or even reason, for in his day his right to increase the French vocabulary was about as good as that of anybody else.—New York Times.

Fire in Forests.
Destruction by fire of mature forests and areas of second growth remains our most serious problem, says the American Forestry Magazine. If we can only make every man, woman and child appreciate the danger of fire and eliminate it to the degree that European nations have done, we will soon find ourselves well on the road to realizing that perpetual forest dream, and insure for all time a steady and constant supply of the food and paper upon which we all depend.

Thought Opals Lucky.
Queen Victoria was not superstitious about opals. In striking contrast to her unfortunate contemporary, the Empress Eugenie of France, who had a deep-rooted fear of them, Victoria thought them to be both beautiful and lucky. She had a pair of opals made for each of her daughters as a wedding gift.

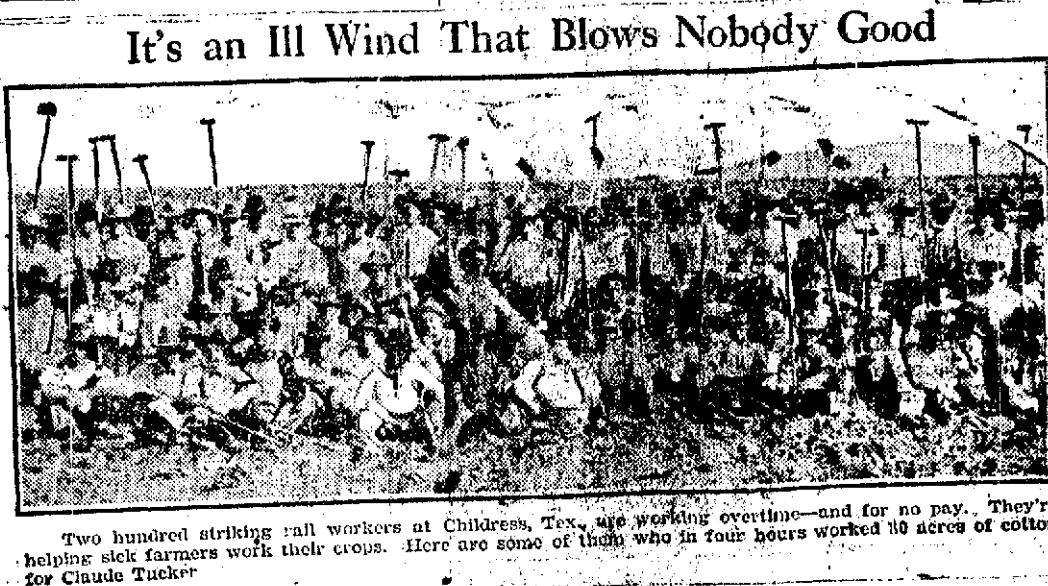

Toothbrush Case.
Art tickling is very appropriate for making toothbrush cases. They should be lined with gum tissue and finished with seam binding around the edge with loops to hang by. Always place the bristle end inside to protect from dust germs.

Keeps Her on Edge.
Everything may be a terribly old and dried certainty with a married woman, except this: She never knows what her husband will get mad at next.

By Condo

By Allman

Bath in West Africa.
The bath of West Africa makes elaborate preparations for a real soak by digging a hole in the ground, in which he puts seven herbs, a quantity of peppers, caribean seeds and bushes, then he pours in a lot of boiling hot water. After he gets in, a light frame covered with clay is put over the hole to keep in the steam. After hours of steaming the bather emerges and is washed off with clean water, then kneaded by a professional for one hour, when he dons his scanty clothing and goes his way "shivering with cleanliness."

Dogs Foretell the Weather.
Prairie dogs seem to have some kind of knowledge of the weather. It is observed at the New York Zoological park that the dogs of the colony when the earth around their mounds, with their forefeet, then shovel the soil upward with their hind feet. Other dogs work in the hollow, throwing out earth to the surface. When a dyke has been built, the animals stamp the earth down with their heads—an amazing sight. As those operations frequently take place before a storm, the obvious purpose is to build a dam that will keep the water from running into the burrow.

Oysters Grow on Trees.
In the Farant harbor of Italy the sight of oysters growing on trees may be seen. This does not mean that the oysters grow like apples and such fruit, but it is the custom there, where the oysters are cultivated, to put trees into the water for the young oysters to cling to. This scheme is said to have been introduced by a fisherman who could otherwise be devoured by fish before they had a chance to develop. The trees are placed in the water with their trunks up and when it comes time to transplant the oysters the trees are taken up bodily and carried to the new grounds, saving much labor.

Too Much.
A very stout man mounted the scales in a downtown drugstore the other day and dropped a penny in the slot. There was some wait, and the clanking and rattling of the levers of the contraption, and the pointer finally came to rest somewhere not far from the 300 mark. There was an unseen witness to the ceremony, and, as the fat man woefully contemplated the result, the voice of a wee small boy piped up from behind him: "Say, Mister, how many times do you go around?"

Help Wanted.
He—"Two can live as cheaply as one and we could start out by doing housekeeping." She—"That would be fine if we only knew where we could find a vacant light-house."

Pipe Arch Bridge.
An engineering curiosity, said to be unique to this country and to have only one parallel in Europe, is the pipe arch bridge over the Sudbury river which carries Boston's water supply. The span is eighty feet, and the steel pipe, seven and one-half feet in diameter, rises five and one-half feet above the horizontal at the center. The pressure on the abutments when the pipe is filled with water is great and is resisted by a mass of concrete forty feet thick behind each abutment. Across the curved top runs a hand-called foot bridge. The steel of the pipe in the arch, portion is five-eighths of an inch in thickness.

Barking Dog Owner Jailed.
When a dog barks at night in Japan the owner is arrested and sentenced to work for a fixed time for the neighbors whose slumbers may have been disturbed.

POSITION WANTED
An experienced carpenter wants a position where his skill will be a money-making thing for himself and the man for whom he works.
NAP CHALIFOUR
405 Cherry St., Phone 12W2.

HAVE YOU TRIED THIS
KIND OF A MID-DAY LUNCH
A tasty veal salad sandwich and a glass of chocolate milk—malted if you wish.
Lots of folks are making their mid-day lunch during these hot days and find that there's nourishment enough to see them through the day.
Why not try it if you're too busy to go home for lunch?
VIRGINIA CHOCOLATE SHOP
All P. R. R. Trains Stop Here.
Come in and Wait.

Thought He Had Fleas.
George, five, was taking a walk with his papa. It was warm and his underwear was scratching him. He stopped and began to scratch himself. As he did so he said to his papa: "Do you know I have fleas?" "Well," said his papa, "what makes you think that?" This is what he replied: "When dogs scratch themselves people say they have fleas, and ain't I scratching?"

Hindus Invented Bungalow.
The word bungalow is an Anglo-Indian version of a Hindi word, which primarily means "Bengali, or of Bengal, and is also applied to a thatched hut."

Wouldn't Be Right.
"Our pastor's sermon this morning did not have so much use in usual." "Huh?" "Certainly!" "Lent"—Boston.

'KISSED'

Wet Gold

Liberty Theatre Tonight **Driggs Theatre Tonight**

A HAND-TO-HAND FIGHT AT THE BOTTOM OF THE SEA!

Fights, romance, adventure, drama—they crowd this sensational story of a battle for buried gold at the floor of the ocean.

"WET GOLD" will lift you out of this hum-drum world and take you into the land of sheer romance. The trail jumps down the length of a continent and then plunges to the very bottom of the sea.

Here Tonight!

Gossip For Tonight's Tea Table

Mr. and Mrs. G. A. Stewart and family, who spent the past week at Stone Run Camp, will return home Monday.
Mr. and Mrs. C. F. Wilson, Mrs. William Bigler and Mrs. A. L. Moore were Clearfield people registered at the Bellevue-Stratford, Philadelphia, this week.
Mrs. Helen Fullerton, of Akron, Ohio, spent Thursday with Mrs. Ralph Myers.
Mr. and Mrs. Ralph Myers and Mrs. Joe Cochran and son Edward, spent Sunday in Woodland with Mr. and Mrs. Frank Wagner and Mr. and Mrs. Richard Cotter, formerly of Portland, Ore.
Mrs. M. J. McGannon, of DuBois, who underwent a surgical operation at the Clearfield Hospital Wednesday morning last, was removed to the home of her brother J. D. Connelly on South Fourth street yesterday afternoon, where she is recuperating nicely.

Early Waterway Builder.
Francis Egerton Bridgewater (1736-1802) was called the "Father of Inland Navigation in Great Britain." He completed a navigable canal connecting the cities of Liverpool and Manchester, and promoted the Grand Trunk canal navigation.

The Inner Light.
After all, the kind of world one carries about within one's self is the important thing; the world outside takes all its grace, color and value from that.—Boston Transcript.

Only a Few.
A few people take their pleasure so seriously that they have to open offices and get into business for relaxation.—Washington Star.

Will Never Grow Old.
A young woman can't help thinking that she will never grow old, because long before the time comes for that there will be a change in the laws of nature.

Watch Out, Caribad!
Caribad, the famous health resort is built on a crust, underneath which is a volcanic lake of boiling water and all the hot sulphur springs have to be ceaselessly watched and the pressure kept down lest the town be destroyed.

Fond Relative.
Alice—"Do the doctors give you much hope regarding your rich uncle's illness?" Bob—"No, they say he may live for many years yet."—Houston Post.

The Red Poppy Fields.
According to the history of European wars, it has been found that the red poppy grows in fields where blood has been shed. They flourish in England, Belgium and France.

Attraction

No entry in the recent bicycle races at Milwaukee attracted more attention than Miss Marion Wilkins on an old-fashioned high-topler.

Making Matches.
Matches are turned out in huge quantities by machinery. The machines now in use cut up great planks of wood into match splints at lightning speed. The ends of the splints are then passed through a paraffin bath and receive their heads.

Quick Relief for Eczema

San Cura Ointment is a Marvelous Ointment for Many Other Distressing Ailments.

San Cura Ointment has cured many cases of itching, bleeding and protruding piles. It has drawn the poison from such completely healed running sores and fever sores which were so old and chronic that everyone who saw them considered them hopeless. San Cura Ointment is guaranteed by your local druggist to do as stated above and also to banish tetter, salt rheum, boils, carbuncles, to heal ulcers, cuts, burns, scalds and bruises, or money back.

The same guarantee holds good for chilblains, chapped hands and face, so you risk not a penny when you buy a jar for 35c, 65c and \$1.25 at all Drug Stores.

Where the Swallows Fly

This photograph was taken at an island off Key West, Fla., the rendezvous of thousands upon thousands of swallows.

The Power Plant from a \$1795 Car

Six Cylinders—50 Horsepower—\$1065

The six-cylinder motor of the Jewett is a development from the Paige 6-44 motor that proved its worth in thousands of Paige cars everywhere.

Last year you paid \$1795 for a five-passenger touring car powered with this 6-44 motor—and it was then an outstanding value in the competitive field.

Now, with many refinements and improvements, with the addition of force feed oiling, this superb power plant is the heart of the Jewett.

And the price is \$1065, f. o. b. Detroit.

It is sold and serviced by Paige Dealers Everywhere

WHY NOT TRY BILL WHEN YOUR WATCH WON'T KEEP GOOD TIME?

I've been fixing watches that had been giving trouble for a long time and after I got thru with them they were ticking along in fine shape. Some of the jobs looked well nigh hopeless when we tackled them but we persevered and the job was going good when we finished.

Do you have a watch or clock that hasn't run for some time and you'd like to have it running. Then, bring it in and we'll make it go if it's at all possible.
